

## INFORMATION SERIES

### Where can I get assistive listening devices & systems?

There is a variety of equipment that can be used by Deaf and Hard of Hearing individuals who have residual and usable hearing to enhance their ability to hear a conversation on a one to one basis, in a group, to listen to speaker at a conference or to effectively hear and have the opportunity to participate in a meeting. This equipment can be used in a variety of situations for example systems can be used to amplify television for the Deaf or Hard of Hearing user without disturbing the listening comfort of others in the room. Contact the companies below for further information. Inclusion on this list does not constitute endorsement of these products and exclusion does not imply disapproval.
