

APPS THAT CAPTION YOUR TELEPHONE CONVERSATION

CaptionMate

CaptionCall Mobile

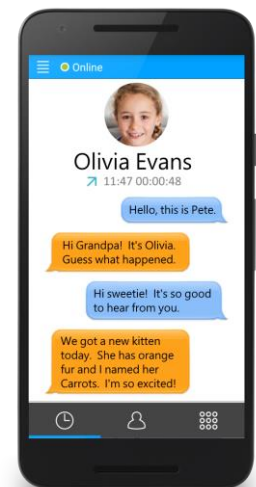

InnoCaption

Olelo Captioned Calls

If your hearing loss makes understanding your smartphone conversations difficult, these apps could be the solution for you.

These are some of the apps that provide real-time captioning of phone conversations at no cost to users, as it is funded by the FCC's Telecommunications Relay Services Fund.

For more information on resources for the Deaf and Hard of Hearing, please contact the ATEL Program at (401) 486-3325.
