Never pay a monthly, activation or set up fee again. FreedomAlert is yours to keep and use forever. Once you purchase it there is nothing more to pay.

Personal Security has never been so small or affordable. FreedomAlert is the first product ever to allow you instant 2-way speaker phone communication through your mini wearable pendant to family, friends, or neighbors, at any time from ANYWHERE in or around the home. If your programmed contacts are unreachable at the moment – the system can default to contact a 911 emergency operator. Never be out of range from assistance again.

FreedomAlert is a one time purchase – no monthly fees!

The worlds first 2-way emergency pendant communicator
 Emergencies can happen in all parts of a home and frequently right outside a home in the yard or driveway. All other systems on the market require the user to shout across the home to a speakerphone box in the middle of the home. FreedomAlert puts the speakerphone right in the pendant - and gives you great voice quality anywhere within hundreds of feet of the base unit.

Up to 4 user programmable contacts to call anytime

You can personalize the system with a flick of a three position switch on the base unit to:

1. Call up to 4 custom contacts
2. Call up to 4 custom contacts & then the 911 emergency operator
3. Or just the 911 emergency operator.

It's your choice.
